
SinterCast

— Supermetal CGI —

SinterCast is the world leading supplier of on-line process control technology and know-how for the reliable high-volume production of Compacted Graphite Iron (CGI). A publicly listed company on the Nasdaq Stockholm stock exchange, SinterCast provides novel, value-added solutions to the global metals and automotive industries.

As a result of our growing customer activities we now seek to expand the Team at our Technical Centre in Katrineholm with the following new position:

Service Technician

- Assembly and test of SinterCast hardware
- Technical support for all SinterCast Systems
- Maintaining and evolving quality control for all incoming and outgoing goods
- International travels for servicing machinery can be a part of this role for the suitable person

Reporting to the Chief Engineer – Systems Development, the successful applicant will have a technical background and will be based at our Technical Centre in Katrineholm, Sweden. This position offers exciting opportunities for a flexible and driven individual.

For further information contact Johan Antonsson, Chief Engineer – Systems Development, telephone +46 150 79440. Send your written application marked "Technician" before 21 September 2018 by e-mail to: info@sintercast.com.
