

SinterCast is the world's leading supplier of process control technology for the reliable high volume production of Compacted Graphite Iron (CGI). As a specialist supplier of precision measurement and process control solutions to the metals industry, SinterCast also supplies a suite of tracking technologies, including the SinterCast Ladle Tracker® and SinterCast Cast Tracker® technologies to improve process control, productivity and traceability in a variety of applications. SinterCast is a publicly traded company on the NASDAQ Stockholm stock exchange.

As a result of our growing market penetration, SinterCast is seeking to expand its global presence with the following new position to be based in Saltillo, Mexico:

Systems Engineer

- Technical support of the SinterCast industrial process control systems at four locations in Mexico
- Provide local customer support and on-site service; liaison to the SinterCast Technical Centre in Sweden
- Ensure system uptime, process efficiency and customer satisfaction
- Engage customer in daily dialogue, utilising the system results for process and system optimisation
- Promote and sell-in new SinterCast functionality and new SinterCast products

Reporting to the General Manager of Latin America, the successful applicant will have a degree in electrical or mechanical engineering and a minimum of five years of experience in a relevant field. Applicants need to be skilled in performing RCM and RCA analysis, read OEM manuals and schematics, perform troubleshooting tasks, help with the creation of maintenance checklists and procedures, supervise preventative maintenance work, participate in equipment maintenance, and perform other technical work.

This position offers exciting opportunities for a self-motivated and flexible individual who has a strong appreciation for robust customer service. Spanish and English skills are required (spoken and written). SinterCast is active in Europe, Asia and the Americas. This position is based in Saltillo, Mexico and offers opportunities for international travel. Competitive compensation and comprehensive benefits.
